April 8, 2010

Dear Little Rock Lake Association members:

As stated in my letter posted on the Little Rock Lake Association website - I am leaving my position at the Benton Soil and Water Conservation District effective April 21. I will be starting a new position at Emmons & Olivier Resources, Inc. located in Oakdale on April 26.

I will miss you all! Thank you for all your hard work and dedication – it has paid off! Even in my relatively short time here at the Benton SWCD, I have seen a remarkable change in the Lake Association. The current leadership is focused, ambitious, and involved. The Association will continue to be successful - I look forward to “watching from the sidelines!”

A special thanks to Mark Beckman – I enjoyed all of our sample collection outings! We really have seen it all when it comes to weather! I can say that I will never have such a great captain again to take me out sampling! Thank you, thank you!

Cliff Weitgenant – In 2008 you volunteered to take turns with Mark so that I could collect samples more frequently. Thank you for your time and good company!

Keep up the excellent work everyone!

Sincerely,

Annie Felix
Water Plan Technician
